

What clothes should my child wear in the slip-on bag?

TOG guideline

Our TOG table is a guide to **what clothes your baby should wear in the baby sleeping bag**. This depends largely on the room temperature. Please always check that your baby is neither too warm nor too cold. **The Celcius recommended temperature for an optimal sleeping environment is between 16 and 18 degrees.** Feel your baby's neck: if it is damp, your baby is too warm.

 Room temperature	 Carrynest TOG 1	 Sleeping bag TOG 2,5
<p>22°-24° C</p> 	<p>short-sleeved body + carrynest</p> 	
<p>18°-21° C</p> 	<p>long-sleeved body + carrynest</p> 	<p>short or long sleeved body + sleeping bag</p> 
<p>15°-17° C</p> 		<p>long-sleeved body + pajamas + sleeping bag</p> 

If you already know which tog strength the carrynest should have for your baby, you will find the right carrynests and sleeping bags here.
